BISMA KANWAL

Data Science Student | Front-End Developer | Machine Learning Enthusiast

Okara, Pakistan | 0328-6807900 | bismakanwal@email.com | linkedin.com/in/bismakanwal | github.com/BismaKanwal19

PROFESSIONAL SUMMARY

Data Science student (CGPA 3.6/4.0) with front-end development internship experience and hands-on exposure to full-stack development using React, Node.js, and Express.js. Skilled in building responsive, cross-browser web interfaces and connecting them to back-end logic, with a strong foundation in Python-based data analysis and machine learning. Combines practical development experience with analytical and problem-solving skills to deliver data-driven, user-focused solutions.

TECHNICAL SKILLS

Front-End Development: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Responsive Web Design

Back-End Development: Node.js, Express.js, RESTful APIs, Authentication Systems

Programming Languages: Python, C++, Object-Oriented Programming (OOP)

Data & ML Libraries: Pandas, Matplotlib, Seaborn

Data Science & AI: Machine Learning, Artificial Intelligence, Data Visualization

CS Fundamentals: Data Structures & Algorithms (DSA), Database Management Systems (DBMS)

WORK EXPERIENCE

Front-End Development Intern *June 2025 – August 2025*

InvexTech Software Development

- Developed responsive, cross-browser web interfaces using HTML5, CSS3, JavaScript, React.js, and Tailwind CSS for 3+ client-facing projects.
- Translated UI/UX wireframes into pixel-perfect front-end solutions using React components, collaborating with cross-functional development teams to meet project deadlines.
- Optimized web performance and enforced mobile-first responsive design standards across all deliverables, improving cross-device usability.

PROJECTS

Full-Stack Login & Authentication System *React, Node.js, Express.js*

- Built a complete login/authentication system with a React front-end and a Node.js/Express back-end handling request routing and form validation.
- Implemented client-server communication via REST APIs, connecting the React interface to backend authentication logic for a seamless login flow.

Facebook Login Page Clone *React, HTML, CSS, JavaScript*

- Recreated Facebook's login page as a pixel-perfect, responsive React component, replicating layout, styling, and input validation behavior.
- Practiced component-based UI architecture and state management to reproduce a real-world production interface.

Personal Portfolio Website *React, Tailwind CSS*

- Designed and developed a personal portfolio site using React and Tailwind CSS to showcase projects, skills, and resume.

Calculator Application *HTML, CSS, JavaScript*

- Built a fully functional calculator supporting arithmetic operations, error handling, and full keyboard input support for accessibility.

SOS Game *OOP / Logic Programming*

- Developed an interactive two-player board game with turn management, win-detection logic, and real-time score tracking.

Responsive Website Front Page *HTML, CSS, JavaScript*

- Designed a mobile-first, cross-browser responsive landing page using CSS Flexbox/Grid.

EDUCATION

Bachelor of Science in Data Science *2022 – Present*

University of Okara, Okara, Pakistan | CGPA: 3.6/4.0 | 6th Semester (Currently Enrolled)

COURSES & CERTIFICATIONS

- Web Development — HTML, CSS, JavaScript, Tailwind CSS (Completed)
- Data Science — Python, Machine Learning, AI, Data Visualization (In Progress)
